

LEGAL REDRESS REPORT

April 26, 2021

For the Executive Board

The legal redress committee is currently active in a number of areas.

- Housing issues. We have run up against some of the structural problems in public housing.
- We worked with an institution of higher learning to restructure its response to complaints of bias by students.
- We continue our fact-finding about jail accountability in a southern Oregon county.
- We are still actively working on an incident regarding bias by a teacher in a high school in another area.
- We are still monitoring several cases until they are resolved in court or through the agencies that are involved.
- We are implementing fillable complaint forms our web page.
